

>_ ENGINEERING SUMMARY

- 7+ years of experience working in the IT industry as a **Java Full-Stack Developer** and **AWS Cloud Engineer**.
- Hands-on expertise in **Core Java, Java 17, Spring Framework, Spring Boot, Maven, JPA, and SQL**.
- Strong foundation in **Data Structures & Algorithms (DSA), AWS Cloud, Microservices architecture, CI/CD pipelines, and Agile methodology**.
- Experienced with **Agentic AI tools (Cursor & Claude)** — designing custom skills, specialized agents, and workspace rules to accelerate delivery.

>_ PROFESSIONAL EXPERIENCE

 **Senior Java Developer - A3**
Tide • Delhi

Aug 2025 - Present

- Spearheaded the development and maintenance of the **CoSec backend service in Java 17**, delivering high-performance, scalable cloud solutions.
- Engineered the end-to-end integration of Tide with **Companies House** for statutory **filings**, facilitating seamless submission directly from the Tide app.
- Designed robust **RESTful APIs and service connectors** to integrate the Tide backend with internal systems, enhancing data flow and operational efficiency.
- Delivered backend solutions supporting **200,000+ registered companies** on the Tide platform, driving increased revenue and platform adoption.
- Maximized development velocity using **Agentic AI tools (Cursor & Claude)** by authoring custom **skills, agents, and rules** to streamline engineering workflows.

 **Software Development Engineer II (Atlassian)**
EPAM Systems • Gurugram

Jan 2023 - Aug 2025

- Built and scaled high-availability Java microservices for **Atlassian's Customer Support Technology** platform, handling mission-critical customer & support engineer queries.
- Modernized core backend stack: migrated applications from **Java 11 to Java 17**, upgraded **Spring Boot v2 to v3**, and transitioned **AWS SDK v1 to v2**.
- Migrated the API Gateway from **Netflix Zuul to Spring Cloud Gateway**, boosting routing efficiency, scalability, and microservice observability.
- Built custom **Atlassian Forge apps** for support tooling and partnered across teams to achieve **FedRAMP security compliance** for the support platform.

 **Senior Developer**
CardByte (Scientia Solutions Pvt. Ltd.) • Gurugram

Mar 2022 - Jan 2023

- Architected and delivered the enterprise **B2B module** from scratch, introducing multi-tenant features, role-based access controls, and agile release workflows.
- Optimized and stabilized core **Spring Boot microservices**, resolving concurrency bottlenecks and reducing API response latencies across high-traffic endpoints.
- Re-engineered cloud infrastructure deployments on **Azure Cloud Platform** for cost-efficient resource utilization and high availability.
- Mentored junior developers and new hires through architectural walkthroughs, code reviews, and Java design pattern best practices.

 **Senior Engineer**
Nagarro Software Pvt. Ltd. • Gurugram

Jun 2019 - Mar 2022

- Spearheaded core backend development for an **Online Financing Service (FMP)** platform serving **Maruti Suzuki** for online loan processing to customers.
- Designed and implemented scalable **RESTful web services using Core Java, Spring Boot, JPA, and SQL** to automate loan origination and approval workflows.
- Integrated backend microservices with **AWS Cloud services** and automated CI/CD build pipelines to ensure reliable, zero-downtime production releases.

KEY IMPACT

Atlassian Ecosystem Expertise

2.5+ years modernizing Atlassian Customer Support microservices (Java 17 / Spring Boot 3), Forge apps & FedRAMP security.

High-Scale FinTech Architecture

Powering automated Companies House filings & CoSec backend services for 200,000+ UK businesses at Tide.

★ CERTIFICATION

AWS Certified Solutions Architect – Associate

Amazon Web Services

Verified Credential

🎓 EDUCATION

B.Tech in Computer Science & Engineering

Krishna Engineering College (AKTU)

Jun 2015 - Jun 2019
